CAMBRIDGE**

**UNIVERSITY OF  
OXFORD**

## Research Opportunity at Cambridge and Oxford

An opportunity to work with world-renowned scientists at the Universities of Cambridge and Oxford, UK for an intensive 10-week summer experience in their laboratories.

In addition, students take part in exciting experiential learning opportunities including facilitated visits to iconic academic and cultural institutions and participation in presentations and events. The selected UB students, and the faculty mentors at Cambridge and Oxford hosting them, would be involved in finalizing laboratory assignments for each individual student.

### Benefits

- An unprecedented opportunity to engage with faculty at two of the world's topmost institutions
- Deep research experience in cutting edge fields
- Exposure to, and networking with, world-renowned scholars including Nobel Laureates
- Pathways to graduate studies at Cambridge, Oxford and other prominent institutions
- Lasting connections with international experts at the forefront of their fields
- A competitive edge for national and international scholarships and fellowships
- Program dates: either June 2 - August 10 (most likely) or June 9 - August 17, 2019

## Cambridge/Oxford Scholars Program

### Accomplishments of the 9 Cambridge Scholars who have graduated from UB since visiting Cambridge:

#### Current status

- 3 Scholars pursuing MD degree at UB medical school
- 1 pursuing PhD at Princeton University
- 1 pursuing AuD/PhD dual degree at UB
- 1 pursuing PhD at the University of Lausanne, Switzerland
- 1 postbac at Yale University
- 1 postbac at National Institutes of Health
- 1 postbac at Mt. Sinai Hospital, NY City

#### In addition:

1. The above 9 Cambridge Scholars also received admissions to the following institutions and/or received other awards:
  - PhD admission/offers: University of Cambridge, University of Oxford, MIT, Duke, Cornell
  - Won SUNY Chancellor Award for Student Excellence
  - Won Christopher Peterson Award
  - Nominated for:
    - Rhodes Scholarship
    - Gates Cambridge Scholarships
    - Goldwater scholarship
    - Fulbright Scholarship (won alternate position)
2. In addition, 5 Cambridge Scholars are completing their degrees at UB.

### Scope of this transformative program

#### Host Institutions:

- University of Cambridge
- University of Oxford
- Medical Research Council, academically affiliated with the University of Oxford

#### Fields of research available:

- All STEM Fields
- Areas beyond STEM fields can be considered for students who are interested

### Eligibility

- Juniors, and Sophomores with strong credentials
- Eligibility for Seniors depends on their academic level – please contact Dr. Singh ([singhs@buffalo.edu](mailto:singhs@buffalo.edu)) for further information
- Prior research experience required
