

2023

# NEBRASKA SUMMER RESEARCH

## DIGITAL LEGAL RESEARCH LAB

Interdisciplinary scholarship.

Centering stories of freedom-making.

Advancing critical inquiry.

GRADUATE STUDIES

## Develop research experience in law and science.

Digital Legal Research Lab is an interdisciplinary hub for the social scientific study of freedom making in the U.S. Our team explores **legal mobilization among marginalized actors who leveraged the law** to challenge enslavement, deportation, coercive confinement, coverture, and institutionalization to build an interactive and relational database.

Scholars stay in **suite-style housing**, enjoy an **on-campus meal plan**, and have **travel costs covered**. The program also features workshops for **GRE prep**, creating a **research poster**, and more.

Additionally, scholars get a chance to visit the **Omaha Henry Doorly Zoo**, go on **outdoor adventures**, rent bikes to **explore Lincoln**, and more.
